Goal:

This PDF reader must replace the old PDF reader.

Old PDF

New PDF

Technical sheet:

The new PDF is equipped with:

- 1 A color video display
- 2 Six Control Buttons
- 3 A large capacity SD card

Software:

- One MP4 Video Player
- An mp3 player
- One FM receiver from 68 Mhz to 108 Mhz
- A priority receiver (see document below)

Description of the different elements

The Video Player allows you to offer the viewer a description of the different services of the site
The MP3 player FM receiver from 68 MHz to 108 MHz allows to offer the spectator music
And translations of shows
A priority receiver makes it possible to signal a priority alert on the site in order to warn all the spectators of an alert in progress

Synoptic player

If the priority transmitter is switched off the system is operating normally

If the priority transmitter is turned on then it triggers an IRQ which puts the player in alert mode on the screen and broadcasts of the priority transmitter are broadcast in the headphones
If the player is in standby mode (off) the alert mode must turn it on as if pressed the ON / OFF button

Note the frequency of the priority transmitter is not yet known
